## What I should already know:

That the United Kingdom is made up of four countries; England, wales, Scotland and Northern Ireland.

The United Kingdom is surrounded by four seas; The North Sea, The Irish Sea, The Celtic Sea and the English Channel.

Country	Flag	Capital city	Seas
England	-	London	The North Sea
Wales		Cardiff	The Irish Sea
Scotland	X	Edinburgh	The Celtic Sea
Northern Ireland	X	Belfast	The English Channel

## By the end of this unit:

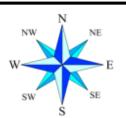

Understand where I am in the world.

Name and locate the world's 7 continents and 5 oceans.

Identify key human and physical features of each continent.

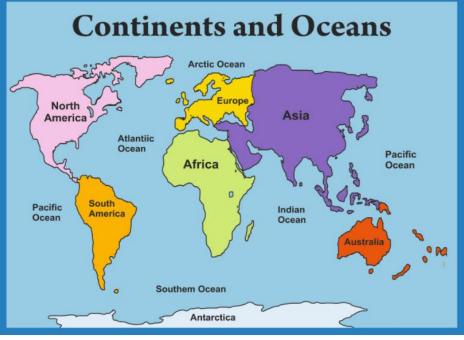

Use simple compass directions (North, South, East and West) and locational and directional language to describe the location of features.

Identify seasonal and daily weather patterns across the world.

## Year 2 Geography:

World knowledge

## **Key vocabulary**

Country	An area of land with its own Government.		
Ocean	Huge body of salt water covering most of the world		
Coast	The land next to an ocean.		
Capital city	The city where the Government is located.		
Climate	Weather conditions over a period of time.		
Hemisphere	Divides Earth into two equal halves - North & South		
Equator	Imaginary line around the middle of Earth.		
Population	The number of people in an area.		
Human features	Features made by people e.g. roads and bridges.		
Physical features	Natural features e.g. rivers and mountains.		

A very large area of land made up of different countries. Some are joined by land and others are separated by oceans.		
Third largest continent Contains the United States of America, but also Canada, Greenland, Mexico, Greenland and 18 other countries. Most people speak English, Spanish or French.		
Fourth largest continent.     Contains the longest river, highest waterfall, and the longest mountain range     Contains the worlds largest rainforest (the Amazon rainforest).		
Second smallest continent     Humans first travelled to Europe about 35,000 years ago.     European countries conquered much of the world.     The United Kingdom is in the continent of Europe.		
Second largest continent     Has the most countries (55).     The oldest human fossils and skeletons have been found in Africa.		
The largest continent. It contains the most people (biggest population). Also includes lots of mega-cities (E.g. Tokyo in Japan, Beijing in China, Delhi in India).		
Smallest continent     Sometimes called Australasia or Oceania.     Contains Australia, New Zealand, and many islands.		
Third smallest continent.  Extremely cold, covered in ice.  Doubles in size in winter when the seas freeze.  Contains 90% of the world's ice.  No humans live in Antarctica permanently.
