

## Year 1 History – Toys through time

### What I should already know:

- We play with toys but the toys that our parents and grandparents played with may have been different to the ones that we play with today.
- Memories from being in different classes in our school.

### At the end of this topic, I will know:

- Victorian toys were usually made from wood, metal, paper or china.
- Modern toys are often made from plastic, and we now have electronic toys.

### Key Facts:

#### History of Popular Toys

Teddies – The first teddy was made in 1902 and now there are thousands of different types of teddies.

Dolls – Victorian dolls were made out of china, wood, paper and metal. Now dolls are usually made from plastic.

Construction toys – these help children to build different things. The most famous is Lego which was released in Denmark in 1949.
