Curriculum statement

Intent

At St Peter's the intention is that children gain a firm understanding of what music is through listening, singing, playing, evaluating, analysing, and composing across a wide variety of historical periods, styles, traditions, and musical genres. Our objective at St Peter's is to develop a curiosity for the subject. We are committed to ensuring children understand the value and importance of music in the wider community, and are able to use their musical skills, knowledge, and experiences to involve themselves in music, in a variety of different contexts.

St Peter's delivers a broad and balanced curriculum, in line with the national requirements, which enables pupils to:

The National Curriculum for music aims to ensure that all pupils:

- Perform, listen to, review and evaluate music
- Be taught to sing, create and compose music
- Understand and explore how music is created, produced and communicated.

Implementation

The music curriculum ensures children sing, listen, play, perform and evaluate. This is embedded in the classroom activities as well as the weekly singing assemblies, various concerts and performances and the learning of instruments. The elements of music are taught in the classroom lessons so that children are able to use some of the language of music to dissect it, and understand how it is made, played, appreciated and analysed. In the classroom students learn how to play an instrument. They also learn how to compose, which in turn feeds their understanding when listening, playing, or analysing music. Composing or performing using body percussion and vocal sounds is also part of the curriculum, which develops the understanding of musical elements without the added complexity of an instrument. Music assessment is ongoing to inform teachers with their planning, lesson activities and differentiation. Summative assessment is completed at the end of each unit to inform leaders of the improvements or skills that still need to be embedded.

Impact

Whilst in school, children have access to a varied programme, which allows students to discover areas of strength, as well as areas they might like to improve upon. Music allows for achievement, self-confidence, interaction with and awareness of others, and self-reflection. Music will also develop an understanding of culture and history, both in relation to students individually, as well as ethnicities from across the world. Children are able to enjoy music, in as many ways as they choose - either as listener, creator or performer.
